

You are Cordially Invited to Experience

THE SECRETS OF THE

TREE WHISPERER™

AN EXPERIENTIAL INTRODUCTION

for people who love trees and plants.

Learn how trees really operate from the inside-out. Find out how sick or declining trees—and forests—can grow again holistically.

How does Dr. Conroy—The Tree Whisperer—really heal trees with the Green Centrics™ holistic energy healing approach and alternative system?

- “Climb inside” a plant’s world in an exciting experiential exercise. Learn about an easy “touch” system to heal trees.
- What are the Tree Whisperer’s insights and secrets?
- What are the 12 stressors that put trees into decline?
- How do the “new sciences” and ancient wisdom apply?
- What is “coming from the tree’s point of view?” ...and how can you experience it?
- Can the negative effects of climate extremes be reversed?

Get practical tips. Find out how you can Tree Whisper™, too.
